### Stomach Misery

Get Rid of That Sourness, Gas and Indigestion.

When your stomach is out of order or run down, your food doesn't digest. It ferments in your stomach and forms gas which causes sourness, heartburn, foul breath, pain at pit of stomach and many other miserable symptoms.

Mi-o-na stomach tablets will give joyful relief in five minutes; if taken regularly for two weeks they will turn your flabby, sour, tired out stomach into a sweet, energetic, perfect working one.

You can't be very strong and vigorous if your food only half digests. Your appetite will go and nausea, dizziness, biliousness, nervousness, sick headache and constipation will follow.

Mi-o-na stomach tablets are small and easy to swallow and are guaranteed to banish indigestion and any or all of the above symptoms or money back. For sale by Wortley & French and all leading druggists.—Adv.

### DON'T STOP SAVING FOOD UNTIL THE BOYS COME HOME

Teach us to share our daily bread with those who sit with us at Freedom's Common Table.

UNITED STATES FOOD ADMINISTRATION

### After the War

180,000,000 people in hungry lands are looking to America for food which no other people can give them. In their misery and famine, Belgium, Northern France, Central Russia, Serbia, Montenegro, Poland, Rumania and Armenia will cry to us.

From us food must come. We must save that we may give. It is America's mission, our opportunity to serve. America seeks the good will of all nations, as Germany aimed to be feared of all.

The foundations of the new world to be built after the war will be laid in good will among men.

The state makes treaties; good will gives them validity. Just and lasting peace will be secured in the friendship of all who sit at the common table.

The shortest, surest way to good will is through sharing food with those whose need is greater than ours.

FOOD WILL WIN THE WORLD

The president's proclamation of September 21, 1918, establishing guaranteed prices for the 1919 wheat crop applies to wheat harvested in the United States during 1919 and offered for sale before June 1, 1920. As in the case of the 1918 crop the wheat must be offered for sale "to such agent or employee of the United States or other person as may be hereafter designated" at any one of the principal primary markets. Up to the present date, however, the agency by which the 1919 wheat crop is to be purchased has not been designated.

Thus, although the guarantee for the 1919 wheat crop will continue until June 1, 1920, there is no present assurance it will be purchased or handled by the Food Administration Grain Corporation.

Other matters on which the public is apparently not clearly informed are the licensing of the fertilizing industry, of the farm equipment industry, and of stockyards. By presidential proclamation of Feb. 25, 1918, May 14, 1918, and June 18, 1918, respectively, supervision of these industries has been assigned exclusively to the Secretary of Agriculture. Certain reports by licensees of these industries are sent to the License Division of the Food Administration, but this is only for clerical convenience and carries no administrative powers.

We believe that clear thinking, speaking and writing will be especially important during the coming days of reconstruction and we shall welcome the opportunity to aid editors in discussing agricultural matters with a substantial background of facts.

### WHEAT PRICE GUARANTEES WILL REMAIN IN FORCE

Food Administration Grain Corporation Will Continue to Act As Purchasing Agency.

Judging from a considerable number of inquiries regarding purchase of the 1918 and 1919 wheat crops in view of prospects for early peace, the following statement seems desirable, says the Farm Journal section of the U. S. Food Administration:

The president's proclamation of February 21, 1918, fixing guaranteed prices for the 1918 wheat crop, applies to wheat "harvested" in the United States during the year 1918 and offered for sale before the first day of June, 1919, to such agent or employee of the United States, or other person as may be hereafter designated" at the principal primary markets specified. The Food Administration Grain Corporation was designated June 21, 1918, to purchase the 1918 wheat crop and will therefore continue to exercise that duty and obligation even though peace should be signed prior to June 1, 1919. The Food Control Act provides that termination of the act shall not affect any obligation accrued or accruing during its existence and the purchase of the 1918 wheat crop is such an obligation.

ly important during the coming days of reconstruction and we shall welcome the opportunity to aid editors in discussing agricultural matters with a substantial background of facts.

### ALASKA INTENSELY PATRIOTIC

Inhabitants of Our Polar Colony Take Lead in Conserving Food.

Lansing, Dec.—Up in Alaska, patriotism is intense. They have given men to the army, oversubscribed their fourth Liberty loan, and now the housewives have reported to the Food Administration that they have been faithfully observing the requests, and have been canning every available vegetable and putting up great quantities of berries and fruits.

The vegetables that grow in that cold part of the country are the hardier kind, and those that grow quickly—potatoes, turnips, carrots, beets and rutabagas.

There are no better fisheries than those in Alaska. They are famous for cod, halibut, salmon, herring and whitefish. They will provide our markets with much of the fish that we shall have to eat this year, if we are going to conserve enough meat to send abroad the two million six hundred thousand tons that are necessary to feed our army and navy and the Allies.

### END OF WAR SHOWS FOOD CONDITIONS

VAST POPULATIONS OF COUNTRIES IN EUROPE URGENTLY NEED FOOD FOR THIS WINTER.

### SAVE TO HELP THESE PEOPLE

Food Administrator Hoover said before going to Europe:

"I am going to Europe to discuss the further food measures that must be organized as a result of the cessation of hostilities. The food problem in Europe today is one of extreme complexity. Of their 420,000,000 practically only three areas—South Russia, Hungary and Denmark—comprising say 40,000,000—have sufficient food supplies to last until next harvest without imports. Some must have immediate relief.

"We have a surplus of some 18,000,000 to 20,000,000 tons of food if we are economical so that the situation can be handled if this and the other smaller surpluses in the world can be transported.

"All continental Europe has reduced herds and is consequently, short of meats and especially fats. These countries have their last harvest and under orderly governments this would furnish breadstuffs and vegetables for various periods from two months upwards, depending upon the ratio of social disorder. In these cases with transportation and financial demoralization, the tendency is for peasants to cease marketing even their surplus and thus instant difficulties are projected into the cities even when resources are available in the country. The peasant and villager of Europe always provides for himself for the whole year in any event. The problem thus narrows itself to the support of the cities and large towns pending restoration of order and the establishment of confidence in future supplies—and the cities are the center of anarchy infection.

"Arrangements have long since been completed by which the big Allies, that is, France, England and Italy will be provisioned. This covers 125,000,000 people.

"Our first and deepest concern now must be for the little Allies who were under the German yoke—they are the Belgians, Serbians, Rumanians, Greeks, Czechs, Yugo-Slavs and others. There are some 75,000,000 people in these groups and they must be systematically helped and at once. We have already doubled the streams of food flowing toward Belgium.

"Our next concern must be to relax blockade measures as far as possible in order that the neutral states in Europe who are now all on short rations, should be able to take care of their people and prevent the growth of anarchy. This is another group of about 40,000,000.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. ### FOOD ADMINISTRATOR PRESCOTT SAYS TODAY

Notwithstanding repeated assurances that the federal guarantee of wheat prices are binding upon the government for the 1919 crop, the statement comes to George A. Prescott, Federal Food Administrator for Michigan, that "rumors are persistent in certain sections of the west, and particularly so in some parts of Michigan" that the government guarantee is to expire June 30, 1919.

At the instance of the Educational Division of the Federal Administration Mr. Prescott renews his assurance that the guaranteed price for wheat, by which Michigan producers will be protected for next year's crop in exactly the same manner as during the season just closed. The order will continue effective until July 1, 1920. This is in accordance with the proclamation made by President Wilson, under authority of the Lever food control law establishing the food administration. The termination of the war has no bearing upon the guarantee of wheat prices, the federal government's pledge being effective to the above mentioned date, even though a treaty of peace is ratified in the meantime, as it is expected to be.
